

2024 Ontario Electrical Safety Code New & Amended Requirements

METHODS OF DELIVERY

In-Person

Online

Virtual

COURSE LENGTH

Online: 4 hr equivalent
21-day access

In-Person: Half-day

CEU Accreditation: TBD

Review the new and amended requirements of the 2024 Ontario Electrical Safety Code for residential, commercial, and industrial installations.

This course is ideal for:

- Electricians who want to stay up to date with the knowledge needed to complete safe, code-compliant installations.
- Electrical apprentices who want to learn the latest Code requirements and build a strong foundation for their careers in the electrical industry.
- Master Electricians and management personnel responsible for overseeing electrical work and ensuring compliance with the latest Code requirements.
- Electrical contractors who want to limit the potential for defects.
- Engineers, designers, and maintenance personnel who are responsible for electrical systems and equipment.
- Supervisors and managers with a technical background who want a comprehensive overview of the new and amended requirements of the Code and ensure compliance in their workplace.

Key Changes to the OESC

- New Definitions
- Expanded Plan Reviews
- Adjusted Calculations
- Revised Grounding and Bonding Guidelines
- New Outdoor Receptacle Requirements
- Clearer Separation Guidelines
- Enhanced Bonding Requirements
- Additional GFCI Requirements
